## ADDICTS (Adikts)

A group of five addictology students decide to try drugs as part of their science project. But the experiment gets out of hand - the effects of the drugs do not wear off even after a few days and they remain high forever...

A six-part series with its raw depiction of drug addiction is aimed primarily at a young audience. It is meant to entertain, yet it also serves as a catalyst to raise awareness about challenges drugs represent to society and their prevention.
