

CZECH TELEVISION PRESENTS A NEW FAIRY-TALE
BY KAREL JANÁK

Crown prince

Crown prince Korunní princ

A tale about two princes, one princess and a magic potion. Prince Charles refuses to accept the fact that it's his elder brother John who, by law and tradition, is the successor to the throne. He steals a magic potion, kept in the Forbidden Chamber, which causes that Prince John, whom he makes drink it, loses memory and disappears in the Spellbound Forest from which there's no return. It seems that nothing stands in Charles's way to the throne any longer, but, as often happens, things take a different turn. Though the witty and thrilling tale rests on a solid classical basis, its conception is totally modern, full of twists and gentle humour.
